

OUR COMMITMENT TO QUALITY

As the industry evolves, so do we, and believe quality starts in the process. Our QA Team works closely with our Production Team to achieve the highest standard of quality for total customer satisfaction. Our consistent quality monitoring throughout each production run ensures your project will have a more accurate and efficient end-result every time. Our commitment to quality is company-wide and we never settle for "good enough".

COMPANY SERVICES

DECORATIVE PAINTING

With 20+ different spray techniques and an endless array of color and special effect choices, we can create the look that will set your product apart from your competitors.

SCREEN-PRINTING

Give your product a more timeless and luxurious feel than labeling alone. Add your logo, your product line design, or have one of our graphic designers help bring your vision to life.

SUBLIMATION

Give your product vibrant, full color, all-over print that is exceptionally durable. This technique embeds your design into the material of your chosen product rather than printing on top of it.

ABOUT US WHO WE ARE

Our expansive 98,000 square foot facility is nestled in the heart of Midwestern Ohio. We are strategically positioned close to two of the largest domestic glass suppliers to bring you the best in glassware solutions. Utilizing five state-of-the-art robotic spray lines, we have developed the capability to formulate and apply a wide variety of specialty coatings and colors on all types of glassware, stainless steel, plastics, and ceramics. We offer the versatility and flexibility to make a project of any size, shape, or complexity a success.
